Dear Administrator Laflamme,

I am pleased to submit the final report of Vermont's traffic records assessment conducted between March 21 and June 24, 2022. I am delighted that Vermont chose this technical assistance tool and that the National Highway Traffic Safety Administration assembled a team of traffic records experts to deliver this in-depth peer review of Vermont's traffic records systems.

In addition to providing their insights via the assessment, each team member also gained a great deal from the assessment and appreciated the opportunity to both contribute and learn. I hope that the assessment process and report will positively impact the future of Vermont's traffic records systems.

Please extend my thanks and appreciation to your staff and colleagues for their efforts to make this assessment a success. If I can be of further assistance, please feel free to contact me or John Siegler at (202) 366-1268.

Sincerely yours,

Frank Subalusky
